Installation Cut-Out: 4 1/2" H x 4" W (11.7cm x 10.2cm)

Electrical Requirements
Power Consumption: 278 Watts
Votage Range: 100-240V AC
Circuit Recommendations:
- Power to system must be turned off if maintenance is needed, therefore:
- a. a separate circuit, or a circuit that can be turned off is required, and
- b. a protected switch is needed to reset system by power cycling
  (a standard light switch guard is provided)
- Power surge protection and power filtering required and not provided
- Electrical components UL and CE certified
- V AC junction box with 1/2" (22mm) trade size knock out;
  where conduit is specified, flexible will be required

Operating Temperature
Air temp at ceiling of room in which SkyView is installed: 41 ~ 85°F (5 ~ 29.5°C)
Air temp above ceiling in which SkyView is installed not to exceed: 95°F (35°C)
For operating environments outside this parameter, please call for optional configuration
Operating Humidity: 20% ~ 80% non-condensing

Mounting
Mounting hardware can receive all-threads or be screwed to solid provisions on sides
of finished opening
See installation manual for details

Warranty
1 year Sky Factory, Inc. limited warranty on entire system
2 year Sky Factory, Inc. limited warranty on monitor

SkyView™
Single Monitor Ceiling Mount
Ultra High-Definition *
Digital Cinema Virtual Skylight
